Research Interests

Population health and health inequalities (women's, neonatal, and paediatric health; socioeconomic inequalities in health); health behaviours and prevention (tobacco control, obesity, behavioural and transgenerational risk factors); health policy evaluation, policy surveillance, legal epidemiology, real-world evidence, and causal inference in observational data.

Education

Ph.D. Candidate, Public Health, University of Groningen & University Medical Centre Groningen, 2022–2026 (expected August 2026).

Interfaculty programme: Faculty of Economics and Business (Department of Economics, Econometrics, and Finance) and UMCG (Department of Primary and Long-term Care).

Research M.Sc. in Clinical and Psychosocial Epidemiology, University of Groningen, Graduate School of Medical Sciences, UMCG, 2020–2022.

B.Sc. in Pharmaceutical Sciences (with honours), Ain Shams University, Faculty of Pharmacy, Egypt, 2008–2013.

Academic and Research Positions

Visiting Researcher, Karolinska Institutet, Sweden

April–May 2026

Statistical and analytical support to the International Birth Experience Study (BEST-IC) team for cross-country analyses; presented research workflows on economic evaluation of long-term postpartum health outcomes and on policy surveillance in tobacco control.

Health Economist, Early Career Researcher Grant Partner

July 2025–July 2026

Joint grant between UMCG and Western Sydney University on continuity of midwifery care models and their impact on preterm birth, common birth interventions, and maternal–perinatal outcomes.

Lead author on the Statistical Analysis Plan; cross-country data harmonisation and joint publications.

Researcher, FemHealthData, UMCG

September 2025–Present

Contributing to a linked data infrastructure that combines routine general practice, maternity, and hospital records with cohort and survey data to study women's health across the life course; applying causal/econometric and health economic methods.

Researcher, International Birth Experience Study (BEST-IC)

September 2022–Present

Fellow on a multi-country collaboration that developed a harmonised patient-reported study in reproductive health; built reproducible frameworks across Sweden, Australia, and the Netherlands; co-developed a socioecological model of childbirth experience that has since been cited and replicated in study designs in Iran, Sweden, and Türkiye.

Invited Visiting Researcher, Ariadne Labs (Harvard T.H. Chan)

March–June 2025

Invited international research visit to design and conduct an economic evaluation of maternal healthcare systems, including cost and outcomes analysis.

Publications

Peer-Reviewed Publications

Muhamed, T.A.S., Angelini, V., Viluma, L., Keedle, H., & Peters, L.L. (2025). Negative childbirth experience in Dutch women: A socio-ecological analysis of individual, interpersonal, and organisational factors from the Birth Experience Study. *Heliyon*, 11(1), e41254. doi:10.1016/j.heliyon.2024.e41254.

Lepe, A., **Muhamed, T.A.S.**, Reijneveld, S.A., & de Kroon, M.L.A. (2024). Mediation by parent health literacy and behaviour of socioeconomic inequality in child overweight. *Pediatric Obesity*, 19(9), e13156. doi:10.1111/ijpo.13156.

Manuscripts Under Review

Muhamed, T.A.S. et al. *Municipal Tobacco Control in the Netherlands: A Quantitative Content Analysis of Health Policies*. First author, under review at *Tobacco Control*.

Manuscripts in Preparation

Muhamed, T.A.S. et al. *Examining the Impact of Modes of Birth on Long-Term Postpartum Healthcare Costs: A Dutch Retrospective Cohort Study*. Shared first author; planned submission Q3 2026.

Muhamed, T.A.S. et al. *Risk and Protective Factors of Obstetric Violence and Birth Trauma in Dutch and Australian Women*. Using BEST-IC data; shared first author; planned submission Q4 2026.

Muhamed, T.A.S. (co-author). *The Clinical Burden of Women's Health Across the Reproductive and (Peri)menopausal Stages of the Life Course in Primary Care: A Retrospective Cohort Study*. Planned submission Q4 2026.

Other Scholarly Outputs

Muhamed, T.A.S. *Tabakdata.nl* — Interactive health policy dashboard on municipal tobacco control in the Netherlands. Available at tabakdata.nl.

Conferences and Invited Talks

2025 European Public Health Conference (Helsinki, Finland) — presenter and co-chair, *Investing for Sustainable Health and Well-Being*.

2024 Normal Labour and Birth Conference (Hong Kong) — invited speaker.

2023 Prevention of Childhood Obesity Conference (Copenhagen, Denmark) — invited speaker.

Teaching

Faculty of Economics and Business, University of Groningen

Guest lecturer, M.Sc. course *Societal Implications of Health Economics* (2025).

Tutor, *Health Economics* (2024–2026) and *Statistics I for IB* (2024–2026).

Supervisor, M.Sc. student research workflows in health policy analysis (2023–2024).

Faculty of Pharmacy, Ahram Canadian University

Teaching assistant, *Pharmaceutics* (B.Sc. course), 2019.

Methods and Technical Expertise

Epidemiology & study design: observational designs (cohort, registry, survey-based); longitudinal and population-based analyses; cross-country and multi-site study harmonisation; survey design for international research.

Statistical & causal methods: longitudinal and multilevel modelling; causal inference; mediation analysis; applied econometrics; policy surveillance and evaluation methods.

Health economics & outcomes research: healthcare utilisation and cost analysis; long-term cost trajectories and care pathways; health system performance; applied economic evaluation.

Data: linked administrative and registry data; large-scale routine healthcare datasets.

Reproducibility: reproducible analytical pipelines in Stata and R; codebooks and analytical traceability; workflow standardisation across projects.

Software: Stata, R, SPSS; Microsoft Office; visualisation in R and Canva.

Credentials

Epidemiologist B (Senior Scientific Epidemiological Researcher), The Netherlands — training programme approved September 2025; expected credential award September 2026 (upon PhD completion).

Licensed Qualified Pharmacist, Egypt (registration no. 166527).

Professional Experience

Quality Control Specialist & Pharmacist, Egyptian Drug Authority

2014–2018

National-level authority to approve or reject pharmaceutical batches prior to market release; key decision-maker in testing high-risk medications including antitumor drugs; processed hundreds of samples per month on high-priority public health programmes including the national Hepatitis C vaccination campaign.

Scholarships and Awards

Brocher Foundation Scholarship, Health Law Summer School, University of Geneva (2023).

PhD Scholarship, Faculty of Economics & Business, University of Groningen (2022).

Tuition Fee Scholarship (M.Sc.), Graduate School of Medical Sciences, University of Groningen (2020).

Living Expenses Scholarship, UMCG (2020–2022).

Continuing and Non-Degree Education

Implementation Science in Public Health, ISGlobal, Barcelona (2025).

Applied Health Econometrics and Health Policy Summer School, Bergamo, Italy (2023).

Global Health Law Summer School, Geneva, Switzerland (2023).

Epidemic Intelligence Service Conference, U.S. Centers for Disease Control and Prevention (2023).

Epidemic Intelligence e-learning, European Centre for Disease Prevention and Control (2023).

Core Learning Path, Obesity Management Professional Diploma (SCOPE-accredited, World Obesity Federation), United Kingdom (2019).

Service and Volunteering

Reviewer, *Clinical Therapeutics*.

Patient Engagement Adviser, Innovative Health Initiative, Global Heart Hub, and European Patients' Forum (2023–2027) — contributing to EU methodology framework and guidelines on the adoption of Early Feasibility Studies for medical devices.

Miscellaneous

Languages: Arabic (native); English (full proficiency); Dutch (intermediate); French and Spanish (basic working knowledge).

Citizenship: Dutch and Egyptian.

Last updated: May 2026.
